

# CGS Global ISIN Data File

## CGS Offerings:

Database Services

**Identifier Solution Services**

Portfolio Services

Segment Services

Web Services

## The Service

CGS Global ISIN Data File provides 12-character ISINs linked to a CUSIP number or CUSIP International Number (CINS). The ISIN underlying reference data is sourced directly from 120 National Numbering Agencies and serves as the primary key driving all identifier linkages. The service contains over 6 million active ISINs, covering many asset classes and trading on both multiple exchanges and single local exchanges.

## Benefits

- Service uses the standardized ISIN and CUSIP numbering systems which creates a common language to identify instruments globally
- Facilitate cross border transactions and settlement through global ISIN identifiers
- Enable broad market coverage within security master file by providing both globally and locally traded securities
- Works with legacy systems that require 9-digit identifiers within a more global environment
- Reduce clerical errors by linking CINS/CUSIP and ISIN identifiers

## Features

- Over 6 million active global ISINs linked to CUSIP and CINS for cross reference purposes
- Issuer and Issue information contained within one consolidated file
- Source information taken directly from the local National Numbering Agency
- Coverage from all regions for a global view of the markets
- Contains high volume securities that trade on more than one exchange in addition to locally traded securities
- Descriptive data: coupon, dated date, maturity date, ISO and CFI, currency and domicile codes

## Format

- Pipe delimited text files

## Standard Delivery

- Initial master file and daily delta files are delivered via FTP

## About CUSIP®

The financial services industry relies on our unrivaled experience in uniquely identifying instruments and entities to support efficient global capital markets. Our extensive focus on standardization over the past 45 years has helped us earn the reputation for being the trusted originator of quality identifiers and descriptive data that are interoperable among regulators, banks, vendors, exchanges and depositories. This ensures that essential front- and back-office functions continue to run smoothly.

CGS is managed on behalf of the American Bankers Association (ABA) by S&P Global Market Intelligence, with a Board of Trustees that represents the voices of leading financial institutions.

Subscription services provide data access directly from CGS. Data is also available through authorized redistributors and may be subject to a separate CGS license.
