

CGS Municipal Issuer Access

A web service providing CUSIP information to municipal issuers for disclosure reporting purposes

CGS Offerings:

- Database Services
- Identifier Solution Services
- Portfolio Services
- Segment Services
- Web Services**

The Service

CUSIP Global Services has been working with the Municipal Securities Rulemaking Board (MSRB), the SEC and other industry groups in an effort to assist municipal issuers with secondary market disclosure reporting requirements. CUSIP is offering municipal issuers access to the CUSIP database via the Internet to facilitate disclosure reporting under SEC rule 15c2-12 since 2003. Municipal Issuer Access is an easy way for issuers to obtain CUSIP numbers for Disclosure filings submitted through MSRB's EMMA website and also for listing on Official Statements. The service is offered with no annual subscription fee.

CUSIP is the industry standard for securities identification and descriptive information. CUSIP's 9-character numbering system of universally accepted codes simplifies communication and recording of securities transactions.

Features

- Provides direct access to the CUSIP database via the Internet
- Assists municipal issuers with secondary disclosure requirements
- Real time updates every 5 minutes
