

CGS CUSIP Access

CGS Offerings:

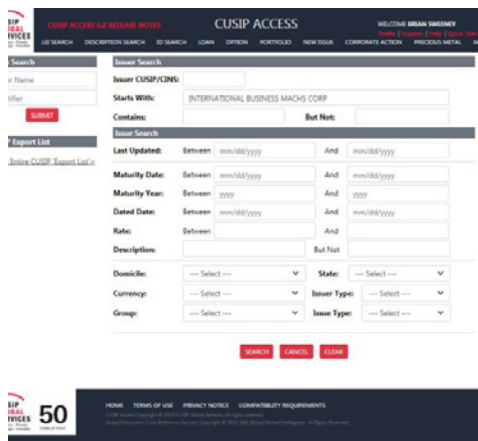

- Database Services
- Identifier Solution Services
- Portfolio Services
- Segment Services
- Web Services

The Service

CGS CUSIP Access is a Web-based service that provides look up and download capabilities of the entire universe of CUSIP identifiers. The database contains issuer and issue identifiers, standardized descriptions and related data for more than 50 million U.S., Canadian and global unique financial instruments. The service includes up to 62 data elements and event-driven corporate actions such as name changes, mergers, acquisitions and reverse splits.

Benefits

- Direct access to the full CGS database
- Real time updates every 5 minutes
- Faster search capabilities
- Reduced clerical errors

About CUSIP®

The financial services industry relies on our unrivaled experience in uniquely identifying instruments and entities to support efficient global capital markets. Our extensive focus on standardization over the past 50 years has helped us earn the reputation for being the trusted originator of quality identifiers and descriptive data that are interoperable among regulators, banks, vendors, exchanges and depositories. This ensures that essential front- and back-office functions continue to run smoothly.

CGS is managed on behalf of the American Bankers Association (ABA) by S&P Global Market Intelligence, with a Board of Trustees that represents the voices of leading financial institutions.

Subscription services provide data access directly from CGS. Data is also available through authorized redistributors and may be subject to a separate CGS license.
